MINUTES

INTELLIGENCE DEFINITIONS WORKING GROUP

7 FEBRUARY 1978

1. The minutes of the previous meeting were amended to reflect the agreement of the Army and Navy members to provide candidate definitions of ACOUSTINT and ACINT, respectively. The former is attached, the latter still to be submitted.

2. Also shown at the attachment are candidate definitions for COINS, SOTA, and SAFE, to be considered at a later time.

3. After some discussion of the need to include Counter-intelligence in addition to the definition of FCI already in the glossary, the Group asked the FBI member to further consider these terms and their definitions. The Acting Chairman was also asked to consult IC Staff members who have CI expertise. A number of other fixes or corrections were discussed and approved for definitions already included in the glossary. Each is shown in this week's list with the usual asterick. Most notable among these were the substitution of the words "special intelligence" where shown in the definition of SS0-- an NSA proposal.

4. The Group agreed upon definitions for Case Officer, Intelligence Officer, and Political Intelligence, under consideration since the previous meeting. It also reviewed the previously submitted proposal to add an explanatory note to the definition of Espionage, but agreed instead to fix the definition as shown in the glossary by adding the final thought on illegality.

5. The Group began to address the NSA lists of candidate definitions and accepted those shown in the glossary. The NSA member suggested that previous NSA lists be discarded and that the Group use substitute lists which are attached hereto for absent members only. Another will be distributed at a later meeting.

6. The next meeting of the Working Group will begin at 1330, 14 February 1978, CHB Room 5S09, with a continuation of the NSA lists.
